

BEGIN WORK on improvement of Mokena's Front St., between Division St. and Schoolhouse Rd. The street is to be widened and repaved but before that part of the project is started the storm sewers called for by the state highway department must be installed. Crews are now installing the tile and the big concrete inlets that will drain the street of surface water. The earth removed was hauled away; gravel will be used to backfill the excavations. There will be curb and gutter and the sidewalks on both sides of the street are to be replaced. This last improvement will be a charge against the householders along the street. The county is paying for a portion of this improvement, the whole cost coming out of motor fuel tax. The state highway department permits the laying of black-top up to Nov. 15, it was explained.

Chance For Olympic Team

Jenny Otto, whose chances of making the U.S. Olympic Track team are rated as very good, is now at Los Alamos, N.M., where between now and Oct. 1 she hopes to run the 80-meter hurdles in :10.8.

Jenny would be very happy, of course, to better that mark but if she can just equal it that will be sufficient to land her a berth on the team.

The Olympic Games open in Mexico City Oct. 12, and the track meet division opens the following day.

Jenny -- actually her name is Jennifer -- a junior at Lincoln-Way High School, is the 15-year-old daughter of Dr. and Mrs. Claude W. Otto, of Frankfort. She has often thought of having a chance to compete in the Olympics but figured it probably would be 1972 before the chance arrived. But it is here -- now.

Jenny's chance for the

Promotion

Theodore E. Desch, 36, has been elected vice president and general counsel of the Rock Island Lines, Jarvis Langdon, Jr., chairman and president, announced today.

Olympics was won by her showing in the women's and girls divisions of the Women's National Championships at Aurora, Calif., Aug. 24-25. Two weeks before that she had qualified for the semi-finals of the 50-yard hurdles with a time of :6.8. In the 50-yard hurdle finals she was declared the winner, equalling the national record of :6.7.

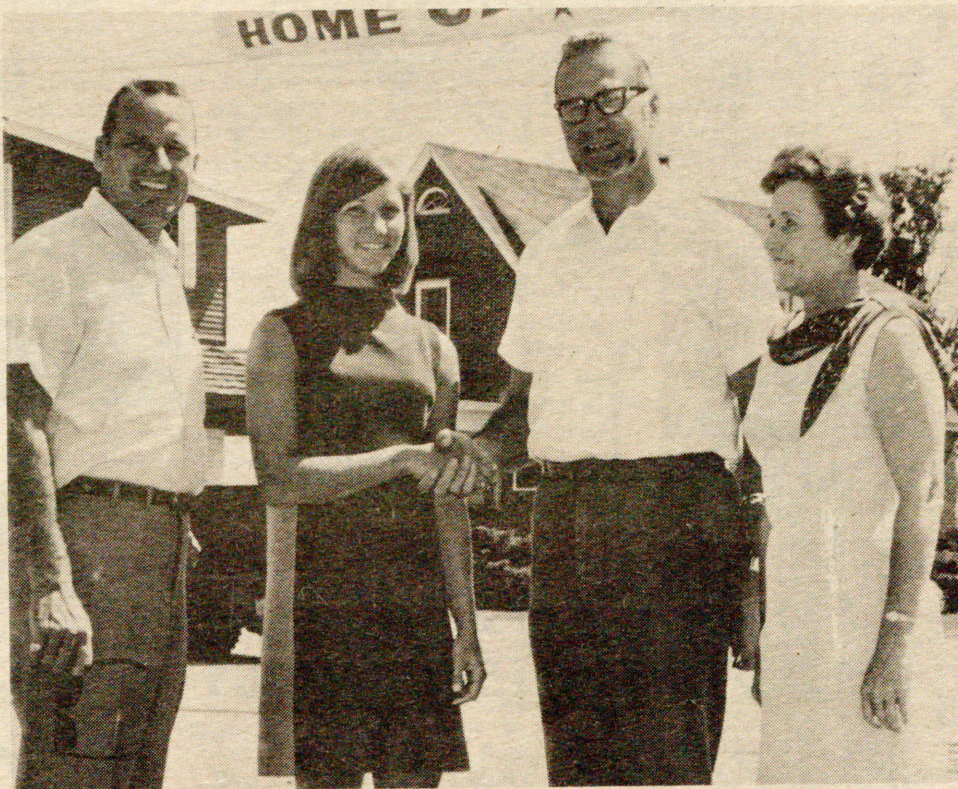

In the Aug. 24-25 trials her best time was in the 80-meter hurdles with a mark of :11.2, which was good enough for fourth. Since then, her father said, Jenny has traveled the distance in :11 flat. If she can just trim two tenths off of that Jenny is in.

Jenny's coach, Jim Santos, of the Chicago Heights Track Club, has been giving her training that should prepare her for the high altitude of Los Alamos, which has been chosen as a training site for the track squads. The altitude there is the same as at Mexico City.

The popular conception of a hurdler is a tall, long legged person, and there are some that fit that picture but Jenny is only 5 feet, 6 inches in height but she takes those hurdles with ease.

She is also a top student in school and is an accom-

plished pianist and oboe player. And another thing -- Jenny is a very attractive girl.

THE AREA'S HOPES for representation in the 1968 Olympic games at Mexico City next month rest on the slender form of Jennifer Otto, of Frankfort, a junior at Lincoln-Way High School who is given a good chance of being one of the United States three entries in the women's 80-meter hurdles. Jenny, who left Frankfort last Friday night for the training camp at Los Alamos, N.M., is being wished the best of luck by Mayor Glenn Warning, and Ralph Show (left), president of the Frankfort Chamber of Commerce. At the right is Jenny's mother, Mrs. Claude Otto.

L-W Beats Tinley In 1st Grid Tilt

Lincoln-Way High School football team won its opening game of the 1968 season last Saturday with a fourth quarter rally that gave the Knights a 13-12 win over Tinley Park High.

Statistically the two teams battled on a fairly even basis. The Knights made 19 first downs, the Titans, 18. Lincoln-Way gained 259 yard rushing and Title 255. Each made one fumble. Tinley made 65 yards on passing but Lincoln-Way came up with zero. The Knights lost 50 yards on penalties, Tinley 20.

Neither team scored in the first half. Once Tinley was on the Knight's 2-yard line but fumbled. A towering leap in the end zone by Harold Webb, of Lincoln-Way, intercepted a pass and spoiled another Titan attempt in the first half.

But in the third quarter Tinley wasted no time in getting a touchdown march started. Roberts, Spence and Johnson accounted for 30 yards on the ground and then Ed Ringwald tossed a 50-yard pass to Joe DePaulo. A block on the 15 by Mark Drew gave DePaulo clearance and he went sailing over. Ringwald's run for the extra point failed.

Then the Knights went to work. Webb, Vaughn Karkos, Scott Mangun and Larry Martin kept whittling away the yards until they had the ball on the Tinley 1, from where Webb sneaked over. The Knights faked a kick for the extra point and Webb's pass failing to connect.

Tinley got going in the last quarter, moving 72 yards thru holes punched by Steve Pocok and Gerry Simon, a couple of linemen, Ringwald then tossed to De Paul who in turn passed to Bill Sisto for a score. The conversion attempt, a run, failed.

Then Lincoln-Way took over and went parading down the field. On the 25 Webb handed to Karkos, who spun out of the hands of encircling Titans and carried the ball safely into the end zone. Webb sneaked over for the extra point and there was the ball game, Lincoln-Way, 13, Tinley Park, 12.

Lincoln-Way will be host to Bremen this Saturday in its first conference tilt of the season and next week will travel to Oak Lawn for another SWS game.

Ag. Dept. Offers Farm Life Scene

A set of 10-cent lithographs of a country scene in Illinois and 49 other states of America, plus Puerto Rico and the Virgin Islands, has turned into the most popular photographic series ever produced by the

U.S. Department of Agriculture. During the last two years, beauty-loving Americans have bought more than 2.8 million of the "America the Beautiful" prints, including more than 390,000 singles

and 47,000 sets. The series, now in its second printing, was developed by the Soil Conservation Service. Captioned, mowing and crimping alfalfa hay, the Illinois scene pictures the harvesting of forage on a ter-

raced field near Oregon, Ill. Each print is in striking natural color and measures 15 by 20 inches on 20 by 24 inch paper, suitable for framing. The color prints may be obtained by writing the Su-

perintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, and sending a check or money order for 10 cents for each state picture, or \$5. for the complete set of 52 prints. Order blanks are

Plan Improvements For Frankfort Road

The Frankfort village board discussed plans for widening and paving Center Rd. between the E.J. & E. tracks and Sauk Trail, bought a squad car, heard Lawrence Mast, ambassador of the board to Frankfurt - am - Main report on his visit with the burgomeister there, and adjourned early.

The village engineer already is drafting plans for the Center St. improvement and Trustee Lynn Kohlhaugen, street commissioner, said that the county would pay half of the cost. He added that work should begin in the late spring for early summer of 1969. By next year Frankfort should have a credit of at least \$20,000 in state motor fuel tax money and the village's share of the project would come

out of that.

Some months ago the board decided that while taking bids on cars and trucks, as required by law, it would alternate the purchase of motor vehicles between the two Frankfort automobile agencies.

The first purchase under this program was a pickup truck, purchased from Warning Chevrolet. This brought Ralph Show, head of the Ford agency at Frankfort, to a board meeting where he protested against the board's action. At the time Cooper's bid was lower than was Warning's. Monday night Warning's bid was about \$140 less than Show's but this time Show made the sale. His bid was \$2,371.83.

Theoretically the bids should be the same, it was

reported out, because the village is willing to give a dealer \$200 over what the car cost him, but according to Trustee Howard Osmus the business gets fouled up because of a variance in the trade-in price. Mayor Glenn Warning suggested the dealers quote current Red Book prices on the trade-ins.

The village board and its auditing firm were to have had a discussion of the recent audit Monday night but there was a mix-up on the arrangements and the auditors did not appear.

This enabled the board to get away at an early hour, compared with most of its sessions, after listening to Lawrence Mast discourse on his recent visit to Frankfurt-am-Main. Mast, a salesman for Republic Steel,

spent about four years at Frankfurt following World War II, and he married a girl from that area. The couple went to Germany Aug. 1 and returned Aug. 21. Mayor Warning encountered Mast at the bank the day he was buying traveler's checks and in the course of conversation learned Mast was bound for Frankfurt-am Main.

The mayor had only recently received a letter, at the time, from Prof. Dr. Wille Brunet, the lord mayor of Frankfurt, asking Frankfurt, Ill. to be represented in the forthcoming celebration of the fact postal service, on a profit making basis, had been established at Frankfurt some centuries ago by a couple of men out of Almanac de

Gotha.

Village Attorney August Santoro composed a letter which eventually was delivered to the lord mayor by Mr. and Mrs. Mast and they had an enjoyable visit, Mast reported. Now Santoro is drafting another letter, this one to be read at the postal celebration Sept. 27-28-29. It will be read by Mrs. Irma Noell, mother of Mrs. Mast, who resides at Kessel, about 100 miles from Frankfurt, as the personal representative of Illinois' Frankfurt. The lord mayor of Frankfurt is getting in touch with all the other Frankfurts or Frankforts in the United States as a gesture of Friendship.

Mast told the board that Frankfurt-am Main is a rebuilt, modern city, with the latest in architecture and

conveniences -- including traveling sidewalks -- the city is bankrupt. In Europe, he said, there is no state aid for cities. Each city goes it alone.

Mast also reported that the work of the Hollywood producers has firmly moulded the European's idea about Americans.

When he told them he was from the Chicago area, Mast said, the people were certain that he was a gangster and the fact that he had money to travel and enjoy himself only confirmed their opinion.

The West German mark is the most valued money in Europe, Mast said, with the Swiss franc second and the American dollar, once the top dollar of the world, is in third place.

Row Over Personal Tax Collections

A clash between Clarence Lipman (R), Will County treasurer, and State's Attorney George E. Sangmeister, Mokena, dealing with the collection of personal property taxes, marked a recent meeting of the board of supervisors.

Lipman had been seeking the meeting with the board since last June and last week the supervisors heard both county officials.

The state's attorney charged that Lipman was playing politics. Lipman denied this, saying that he was only trying to do his job of collecting taxes, including the delinquent. He said that he has collected approximately \$400,000 in delinquent taxes since he has been in office.

The county treasurer contends that until this spring no suits to collect delinquent personal property taxes had been filed against Frankfort Township residents by Sangmeister. Lipman said the records show that approximately 33 per cent of the personal property taxes in

Frankfort Township were unpaid in 1967. Unpaid in New Lenox Township, he said, was approximately 32 per cent of the personal property taxes.

Lipman ordered 30 suits prepared against delinquent taxpayers in Frankfort Township and these were filed by the state's attorney's office. Then 30 more cases were presented. Twenty-seven of these were filed, Lipman said, and checks in settlement of three of the cases, were sent to his office.

The treasurer refused to accept these, saying that he could not accept less than the full amount due, unless ordered to do so by court order or by the board of review.

Of the three checks sent him as settlement of the three cases not filed, Lipman said, one was for \$140.26 on a tax bill of \$356.59; one was for \$320.45 on a bill of \$584.53 and the other was for \$171.61, on a delinquent tax bill of \$289.99.

As of the time of the meet-

ing before the supervisors, Lipman said, he had 180 more tax complaints in the state's attorney's office against Frankfort Township residents delinquent in their personal property taxes, but as far as he knew no tax suits were filed on them.

Sangmeister said that Lipman didn't have to use his office to collect delinquent personal property taxes, that he could use a collector's warrant to seize an item of personal property and have the sheriff sell it.

Lipman responded that the collector in Sangamon County followed this plan but wasn't collecting taxes, only trouble; that he was running into difficulty in disposing of such items as automobiles, or heavily encumbered furnishings and appliances.

Sangmeister attacked Lipman on the grounds that as ex officio supervisor of assessments he had failed to impose township factors to local assessments. Had he done this and equalized the valuations, the state's attorney said, the state department of revenue would not have applied the 13 per cent multiplier.

Lipman answered that that was a job for the board of review but that had the board had time to do it the application of such factors would have only compounded the inequalities.

Sangmeister told the supervisors that he has always opposed the personal property tax and that when he was a justice of the peace had refused to use his office to collect it and carried the case to the Illinois Supreme Court. The final ruling was that the tax was collectible.

When he ran for state's attorney Sangmeister said he would work for the abolition of the personal property tax and that it was still his hope that the General Assembly would kill it.

"But I know I took an oath of office," he told the supervisors, "and I know a job has to be done."

Sangmeister said that when Lipman's predecessor, J. Leo Waldvogel, was in office, they agreed upon a policy to put personal property tax collections on a current basis.

"I told the taxpayers,"

Sangmeister was quoted, "that if they would pay their 1963 tax and keep current, there would be no prosecution of the delinquencies."

Lipman said he too would like to see the personal

property tax abolished but until it was and as long as he was county treasurer he would do his utmost to collect it.

There was one thing on

which Lipman and Sangmeister were agreed and that is that the county should appoint a qualified supervisor of assessments who would be beyond political pressure.

Frankfort School Board Adopts 1968-69 Budget

The 1968-69 budget for the Frankfort Grade School system, totaling \$493,561.40, was adopted by the board of education at its regular meeting last Thursday, Sept. 12.

Broken down the budget provides for expenditures of \$220,425 from the Educational Fund, and \$52,500 from the Building Fund.

Bond and interest payments will amount to \$30,114.75. Transportation costs are listed at \$17,300 and payments into the Illi-

nois Municipal Retirement fund amount to \$2,900.

The Special education fund, which is employed in all the underlying grade school districts of the Lincoln-Way High School district, is \$170,271.65. It is included in the Frankfort budget because the Frankfort district, No. 157-C, is the administering district. The money comes from all the district and the state.

The enrollment at Frankfort as of last week was 528. Since the opening of school

last year, it was reported, the enrollment has increased approximately 19 per cent. Since the close of school last year the increase has been approximately 13 per cent.

At present all classrooms are being utilized and class sizes are approaching the number at which several may have to be divided further, it was said, to provide pupils with an acceptable educational environment.

The board authorized the further division of the first grade as soon as another teacher is employed. At present there are two sections of each class, with the exception of grade five, which has three sections.

The board also approved the contract of Walter Elmore, who will teach at the intermediate level. Elmore, a graduate of the University of Illinois.

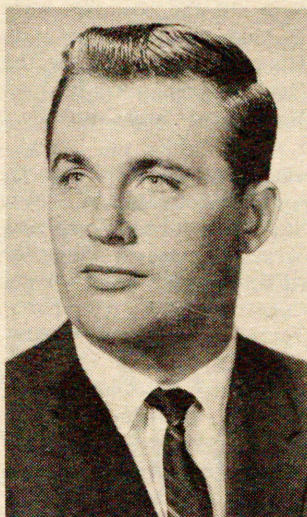

The board will hold its next meeting at 7:30 p.m. Oct. 8, in the school library.

Tests Show Drug Reduces Cholesterol

Copyright 1968 World Book Science Service

"Each year we delay in finding the answer to the enigma of coronary heart disease over 500,000 individuals will die of it," Dr. John M. Weiner, assistant professor of medicine at the University of Southern California at Los Angeles, told the House Appropriations Subcommittee recently.

He urged a large appropriation, under which the National Heart Institute could undertake further tests of the new cholesterol-reducing drug, Atromid-S.

Citing the work on Atromid-S by Dr. Louis Krasno, director of clinical research for United Airlines, Dr. Weiner said that almost anyone who begins to take a

Medical MEMO

By BETTY JOHN

prescribed daily dose of the drug at age 35 should avoid having a heart attack.

Dr. Krasno's 3½-year study covers 2,400 male recruits. The first 1400 men were divided into two groups identically matched as to physical characteristics, habits and basic health indices. One group was given Atromid-S and the other no medication at all.

He found that men who had had heart attacks before the test began incurred a second

one 4.6 times more frequently if they were not receiving the drug. Of 47 heart attacks recorded during the 3½-year testing period, 37 were in the group not receiving medication.

Fatal attacks occurred twice as often in the same group. In order to determine whether the protective action of Atromid-S will be enhanced by taking the drug earlier, he now has another 1,000 younger men under observation.

"On the basis of the evidence so far, it would become abundantly clear that we have a safe, reliable and effective means of wholesale protection against this country's most challenging and serious medical problem," Dr. Weiner said.

MORE PROGRESS -- Meanwhile in England, where Atromid-S has also been under investigation, Dr. George R. Fearnley and a team at Gloucester Royal Hospital have found that a combination of phenformin and ethylestrenol gives coronary disease patients long-term protection from attacks.

COMPENSATION -- Dr. Carl Heiser, a Cincinnati psychiatrist, says Cincinnati has about 10,000 gun addicts who satisfy some sexual inadequacy by opposing gun control and driving powerful, fast cars.

TOO MUCH LICORICE -- Recently, several doctors have reported cases of hypertension (high blood pressure) due to excessive eating of licorice. The symptoms disappeared as soon as the patients stopped eating the candy, and reappeared when they began again.

HEART BRAKE -- A symposium in New York last month discussed the newest help for patients with a broad spectrum of heart diseases. Propranolol, an agent that slows terrifically rapid pulses, puts the fibrillating heart back on course when other drugs are not effective.

FREEZING BONE CANCERS -- Called cryosurgery, the new technique of freezing bone tumors by introducing a freezing agent through a probe has proven

successful not only in stopping the tumor growth, but also the excruciating pain for patients at New York City's Memorial Hospital.

SKIN CANCER TEST -- Liquid crystals, are now being used to detect skin cancers, which in turn can be treated by laser beams, which are also dependent on liquid crystals.

AID FOR MONGOLISM -- Daily doses of 5HTP started the moment a mongoloid baby is born helps it to straighten its legs, which are otherwise limp. The discovery gives doctors at Children's Hospital, Washington, D.C., hope that it may improve other muscle tone in mongoloids.

HIGH-LIVING CAT

The ounce, or snow leopard, lives at higher altitudes than any other member of the cat family. The ounce's summer home is as far up as 13,000 feet in the cold Tibetan plateau of Central Asia, from the Altai Mountains south to the Himalayas. In winter the ounce is seen in valleys at about 6,000 feet.

Peace Making Pets

Copyright 1968 World Book Science Service

Do you have a pet? Why?

Psychiatrists are interested in what pets have to do with our general mental well-being and peace of mind. It seems some of us choose our pets for very complex reasons.

The animals may be filling a deep personal need -- for companionship, love, or self-esteem. Some of us choose or train our pets so they resemble our own view of ourselves.

Someone who is nervous might choose a high-strung

animal for a pet and actually train the creature to be even more nervous!

A pet may keep a borderline mental patient from becoming hopelessly ill.

The person may be able to establish and maintain contact with his animal, even though such contact is not possible with other humans.

Now don't think every pet owner is about to become mentally ill. There is certainly no reason to think there is anything unhealthy or unsafe about having a pet. Perfectly normal, healthy people need companionship

and love. And pets are fun, too!

The psychiatrists are trying to understand some of the deeper and more subtle reasons why we do things. Perhaps, some suggest, our pets are the modern equivalent of primitive man's good luck charms.

Or perhaps we use them to control our aggressive or otherwise unacceptable drives. Maybe this means man's best friends are really mankind's best peace-makers!

Fill in the boxes of this crossword puzzle with the names of dogs that are common pets. Some letters are filled in for clues.

ANSWERS: (across) Cocker Spaniel, Boxer, Doberman Pinscher, Irish Setter, German Shepherd; (down) Poodle, Fox Terrier, Dachshund, Beagle, Collie.

Remote control technology is to be used to replace the man behind the wheel in U.S. Army mine-detecting Jeeps.

The Army's Mobility Equipment Research and Development Center at Fort Belvoir, Va., has awarded The Ryan Aeronautical Company a \$370,000 contract for the prototype remote radio control systems to be installed in Army vehicles.

The system will enable a remote control operator to start the vehicle, disengage and engage the clutch, shift forward and reverse, advance and retard the throttle, steer the vehicle and apply the brakes. The operator carries a back pack transmitter and a chest-mounted remote control unit. The system will operate up to 300 yards.

CSF Offers Special Classes For Adults

Timeliness is the factor determining the 1968 CSF adult education program. Two courses, Politics and Drugs, will comprise the fall program which starts on Tuesday evening, Oct. 1 at 8:00 p.m. in St. Albert Hall on CSF campus. Eugene Duff of the CSF Economics Department is coordinator for the course, politics. Local leaders have been invited to lecture and discuss such topics as politics and the precinct, politics at the county level, politics and law enforcement.

The purpose of the course, Drugs, as stated by the lead-

er Sister Alfred Marie, pharmacist at Our Lady of the Angels Retirement Home, is to bring a meaningful and practical knowledge of this field to the consumer.

Both courses are open to any interested person. There are no prerequisites. The cost per person for an eight week session of consecutive Tuesdays, not including election night, is \$10.

Registration is open and tickets may be procured at Tower Hall Reception Desk or by writing or calling Sister Euthelia, Director, 726-6228.

Open Letter from the HIRSCHS'

Dear friends,

We have been asked this question, "What should be done when death comes to a loved one at some distant point?"

We suggest always that the local funeral director of your choice be notified at once. He will see that your interests are protected and that your wishes are precisely carried out.

This will avoid possible misunderstandings which can so easily occur.

Respectfully,

An electric dryer costs up to \$40 less than a gas dryer. That's the first load off your mind.

Go ahead. Spend a few dollars less, and get the best clothes dryer going. It's the Electric Dryer.

Spend a lot of dollars less (as much as even \$40 less), and still get the best clothes dryer going. It's still the Electric Dryer.

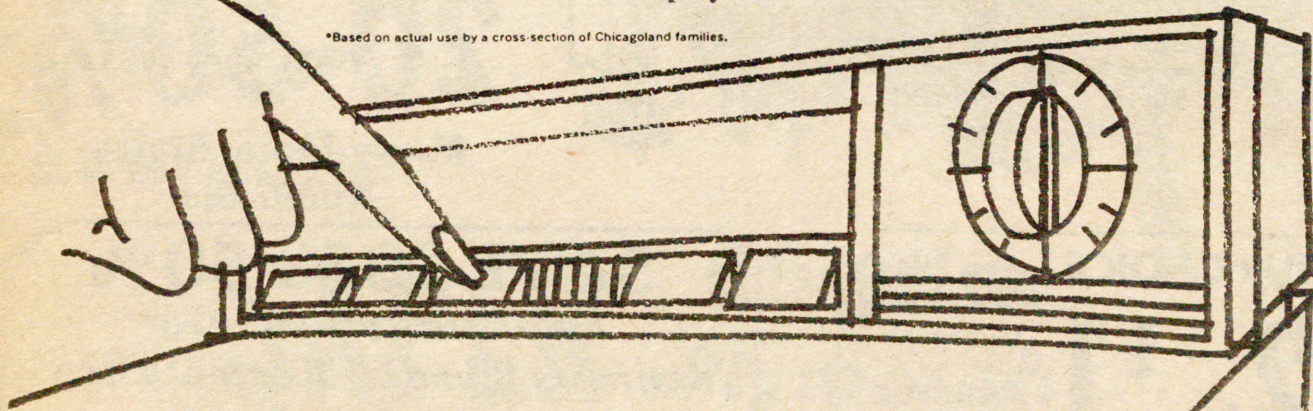

And when you get it home, you can run it for less than 30¢ a week. (So, actually, with that \$40 you can save by buying an Electric Dryer, you can figure you're doing your laundry free for about three years!)

Meanwhile, you're also getting all the other advantages of electric drying: precise control, little or no maintenance, and gentle, radiant heat—like sunshine.

It's the all-in-one dryer that starts out being easy on your wallet and ends up being easy on your laundry—delicate fabrics to wash-and-wear. That's the Electric Dryer for you. It specializes in the right touch, start to finish.

The Arbury Hills Baseball League will hold its annual banquet Wednesday, Sept. 25, at 7:00 p.m., in St. Mary's hall, Mokena.

The boys who participated in the baseball program will be given their dinner free of charge, and either or both parents may also attend at a charge of \$1.75 each. It will

be a catered meal, so one will not be required to bring a food dish as has been done in previous years.

The awards will be presented. A trophy is given for the most valuable player on each team. On the B Team, the A Team and the Pony team there is also a trophy for the most improved player. The Farm Teams are not eligible for this trophy, since not all boys have more than one year in the league.

The Boy Scouts chosen for membership in the Order of the Arrow at the "tapping out" ceremony at Camp Morris this summer, participated in a twenty-four hour "ordeal" to prove their worthiness for membership. In addition to the boys, there were two scoutmasters; Joe Arcuri and Dan Markowskik also tapped out.

Of the six boys chosen one was unable to attend, Joey Arcuri, who is in the hospital. The five remaining boys were: Joe Mangan, Jim Rochelle, Steve Thompson, Ed Hovi, and Russel Dickerson.

The Hot Dog Days at the Arbury Hills School will be held again this year with the first one coming next Tuesday Sept. 24. The price will be 40 cents for the regular order with several options being available at the usual charge.

The Hot Dog Days will be held each month on the fourth Tuesday of the month, unless otherwise announced.

The September meeting of

the Summit Hill Parent-Teacher Group was held at the school last Thursday evening with disappointing attendance.

During the business meeting the annual budget was approved for the 1968-69 year. It was also decided to eliminate the January meeting from the schedule, since it comes so closely on the heels of the holidays.

A decision was also made to eliminate the all-family picnic held in the summer. The funds usually allocated to the picnic will be used to provide more elaborate parties for the holiday classroom parties throughout the year.

There will be two Walt Disney movies shown at the school free of charge. They will be open to the families, including not only the Arbury Hills School students and their families, but also for those attending Saint Mary's School in Mokena.

Pre-school children will not be admitted without being accompanied by a responsible person.

The dates of the movies will be Dec. 14 and Mar. 8. More information will be given at a later date.

Since there were only two responses to the request for teachers aids, there is still a need for more. In order to be qualified for this volunteer post, you must have thirty hours of educational courses. If you are willing to help out, please contact the school at 479-2106.

Young Joe Arcuri on Wal-

nut Street is scheduled to return home the early part of this week. He is making a good recovery from heart surgery held two weeks ago in Chicago.

He will need some two more weeks at home before returning to school. The surgery was happily successful and recovery is progressing satisfactorily. Both he and his family appreciates the good wishes and prayers of friends and acquaintances, which did their part in his recovery.
